Prefabricated Building Technologies

High Strength | Long Life | Heat & Cold Insulation | Fireproof | Earthquake Proof | Low Cost

Prefab Building Technology Selection:

HRAAC : Hot rolled steel section with AAC Panels as floor slab.

EPS-CSP : Cement sandwich Panel: wall & slab with EPS Cement sandwich Panel.

PLCP : Precast Large Concrete Panel System.

LGSF : Light Gauge Steel Frame Structure with infill Concrete Panel.

AAC / PUF : Dry wall system as AAC panels, PUF panels etc.

AHSP : Aluminium Honeycomb Sandwich Panel.

GFRG : Prefab Glass fibre reinforced Gypsum cage panels.

ICF : Insulated Concrete Form.

FCB-PSP : Fibre cement boards with Perlite Sandwich panel.

CALSIL-RWSP : Calcium Silicate Boards with RockWool Sandwich panel.

MGO-RWSP : MgO (Magnesium Oxide) boards with RockWool Sandwich panel.

GALVAL-RWSP : Hot-dip galvanized steel sheet and RockWool Sandwich Panel

GRP-SP : Glass Reinforced Plastic Sandwich Panel.

GALVAL-PIRSP : Hot-dip galvanized steel sheet and PIR Sandwich Panel

GALVAL-PURSP : Hot-dip galvanized steel sheet and PUR/PUF Sandwich Panel

CB-EPS-SP : Cement Board and EPS Sandwich Panel

AL-PIRSP : Aluminium sheet and PIR Sandwich Panel

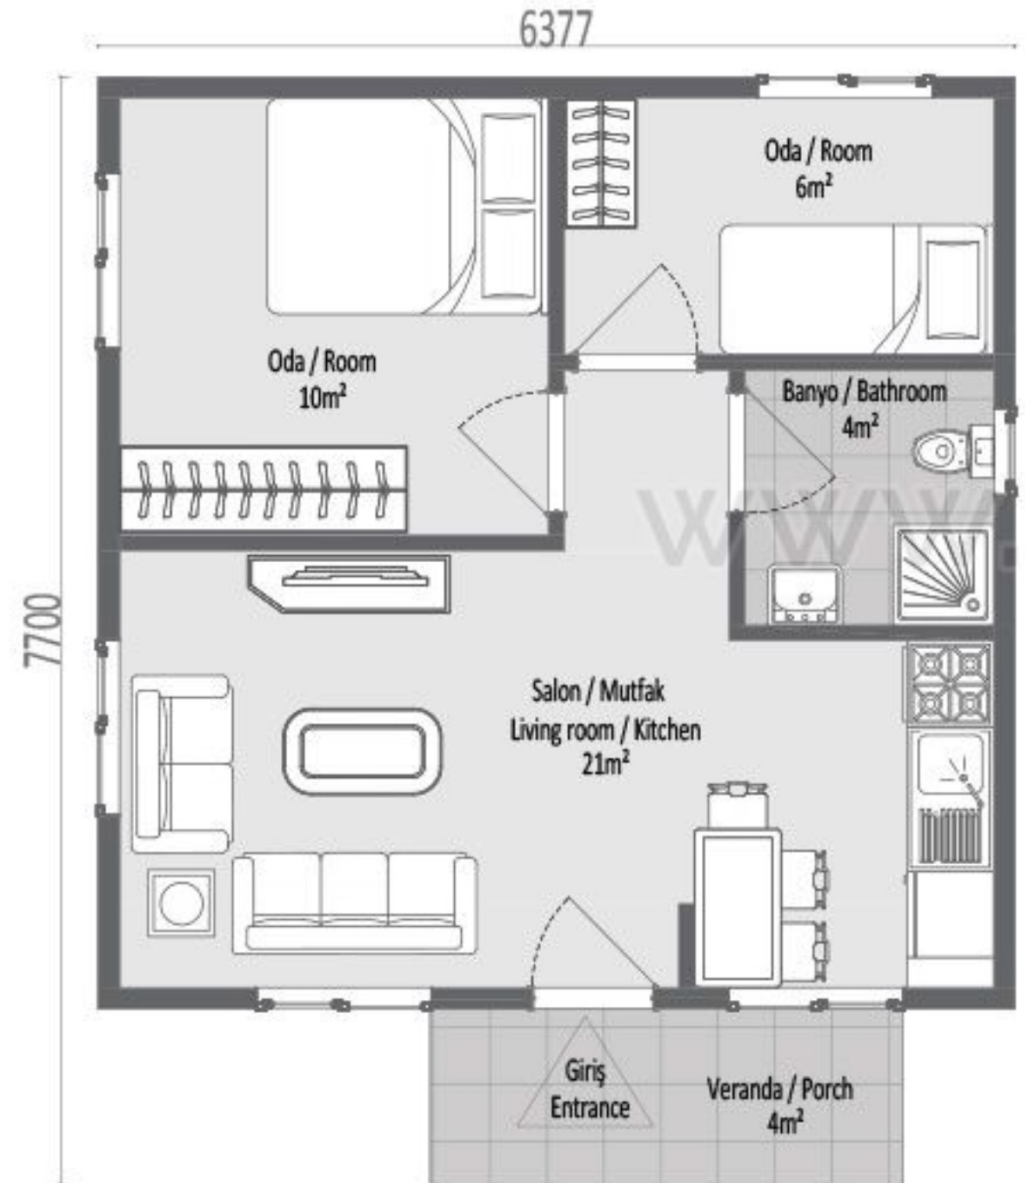

AL-PUFSP : Aluminium sheet and PIR Sandwich Panel

AL-RWSP : Aluminium sheet and RockWool Sandwich Panel
